ABOUT ME

BEHIND THE SCREEN.

Mostdays areamix of school, responsibilities, technology, friends, and ordinary moments that eventually become memories. I like learning by doing, trying new things, and improving one project at a time.

STILL FIGURING IT OUT.

No perfect timeline. Just progress, curiosity, and a lot of learning along the way.

GROWTH

STILL BUILDING.

ACHIEVEMENTS

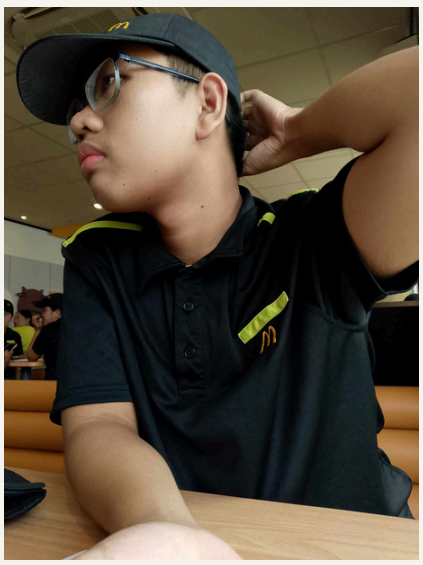

Learning to become more capable, independent, and confident in the things I study and create.

GOALS

Keep improving my skills, finish meaningful projects, and build a future that reflects the work I put in today.

DIFFERENT DAYS, SAME PERSON.

4 PLACES. 1 PERSON. STILL THE SAME STORY.

WORK

Learning,
observing,
gaining experience.

OUTSIDE

Fresh air,
different views,
clearer thoughts.

SCHOOL

Classes,
challenges,
and growth.

UNFILTERED

The real me.
Same person,
different moments.

WHAT I'M INTO

Technology, design, gaming, and personal style all blend together for me. I like anything that gives me room to experiment, tweak, and make something feel like mine.

HOW IT ALL CONNECTS

Work teaches me patience. School teaches me structure. The in-between moments, like walking outside or messing with an idea, are where it actually clicks.
