John Carlo Z. Cacao

Android Developer

johncarlozcacao@gmail.com | 09958746940 | Calamba, Laguna, Philippines

PROFESSIONAL SUMMARY

Motivated Android Developer with hands-on experience building production-grade mobile applications using Kotlin and Jetpack Compose. Proficient in modern Android architecture patterns (MVVM, MVI), on-device machine learning with ML Kit, and real-time concurrency using Kotlin Coroutines. Adept at solving complex engineering challenges including performance optimization, feedback loop prevention, and overlay rendering. Currently pursuing a Bachelor of Science in Computer Science.

TECHNICAL SKILLS

Languages: Kotlin, Python, SQL
Android: Jetpack Compose (Material 3), Android SDK, MediaProjection API, Foreground Services
Architecture: MVVM, MVI, Service-Driven Architecture
Libraries: Retrofit, Room, Dagger-Hilt, Kotlin Coroutines, StateFlow, ML Kit
Backend & DB: Firebase, SQLite/Room
Tools: Android Studio, Git

PROJECTS

Glot | Lead Android Engineer

Tech: Kotlin, Jetpack Compose, ML Kit (OCR, Language ID, Translation), MediaProjection, Coroutines, StateFlow

- Architected an on-device, real-time screen translation utility leveraging MediaProjection for high-frequency screen capture and Google ML Kit for multi-script OCR and translation — supporting Latin, Chinese, Japanese, Korean, and Devanagari scripts.
- Built a custom text tracking engine using Intersection over Union (IoU) matching and hysteresis-based smoothing, reducing overlay jitter by locking positions within a defined pixel threshold and using weighted interpolation for smooth transitions.
- Eliminated OCR feedback loops by implementing a Forbidden Zone geometry map that tracks active tooltip bounding boxes and programmatically filters overlapping detections.
- Optimized performance with a 65% screen capture scaling pipeline, reducing memory footprint and processing time by over 50% while maintaining ML Kit text recognition fidelity.
- Designed a Foreground Service with System Alert Window overlay and a fully customizable Jetpack Compose UI featuring edge-lighting notifications and dynamic color/font configuration.

WORK EXPERIENCE

Crew Member | McDonald's

Calamba, Laguna • April 2025 – May 2026

- Collaborated with a fast-paced team to deliver consistent customer service during high-volume hours, demonstrating reliability and strong work ethic.
- Managed multiple concurrent tasks efficiently under time pressure, reinforcing skills in prioritization and attention to detail.
- Maintained compliance with safety, hygiene, and quality standards, reflecting discipline and accountability.

EDUCATION

City College of Calamba

Bachelor of Science in Computer Science (Undergraduate)

Calamba, Laguna • In Progress

Kapayapaan Integrated School
Information Communication Technology strand
Canlubang, Calamba City, Laguna • 2022 – 2024

Buntog National High School
Secondary Education
Canlubang, Calamba City • 2018 – 2022

Buntog Elementary School
Primary Education
Canlubang, Calamba City • 2012 – 2018

CERTIFICATIONS

Computer System Servicing — National Certificate II (NC II)
Redlink Institute of Science and Technology, Calamba, Laguna • 2024
